Introduction to the Systems and Psychodynamics of Work and Organisations

January 2012 - July 2012
Venue: NSCAP, Bevan House, 34–36 Springwell Road, Leeds LS12 1AW
£259 (early bird rate of £235 is available if you apply before 1st December 2011)
Post Graduate CPD programme
Overall Learning Aims

This programme aims to provide participants with the opportunity to develop their understanding of the psychodynamics of work, organisations, and the individuals and groups within them. Drawing predominantly on psychoanalytic and systemic concepts, there will be a programme of reading in which participants are invited to review a contemporary paper in the area of consultancy, and/or organisational development, and to think about the issues raised in relation to their own area of work.

Time will also be given to discussing work related issues, including aspects of management, organisational development and/or consultancy, as determined by the programme participants.

Is this the right Course for you?

Applicants are to have a minimum of 5 years experience in their respective professions and will usually be directly involved in the management, training or development of other professional workers or engaged in consultative work for specific organisations.

Applicants are expected to have an interest in psychoanalytic ideas and their application to the understanding of organisational dynamics. The programme may be particularly suitable as an introduction for people who wish to undertake further study in this field.

Venue

Northern School of Child and Adolescent Psychotherapy
