# Love, Hate and Desire: sexuality across the life cycle

## Event outline

Freud placed sexuality at the heart of psychoanalysis with the publication of 'Three Essays on the Theory of Sexuality' (1905). The third Trans Pennine Partnership summer conference will explore sexuality across the life cycle.

The Northern School of Child and Adolescent Psychotherapy in collaboration with Greater Manchester Mental Health NHS Foundation Trust is pleased to host this one day CPD conference.

The aim of the day is to develop participants' understanding and thinking about psychoanalytic concepts and clinical descriptions relating to sexuality across the life cycle.

## Aims

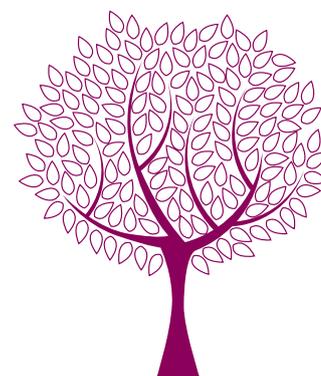

- To further participants' understanding of how sexuality shapes key stages of development across the life cycle.
- To increase psychoanalytic understanding of infancy, adolescence and adulthood in relation to clinical practice with these groups of patients.
- To provide a psychoanalytic understanding of how sexuality manifests in the life of an organisation.
- To bring together professionals interested in psychoanalytic approaches to understanding clinical work, and to promote networking.
